

Pediatric COVID Care Pathway

ASYMPTOMATIC child with confirmed exposure to positive case

(If child becomes symptomatic see SYMPTOMATIC pathway)

*Testing available at Assessment Centres, Specimen Collection Centres, Primary Care, or Self Swabbing as part of School Pilot, if available. Rapid antigen testing NOT acceptable. Oral/buccal-nasal swabs are PREFERRED. If testing declined, and fully vaccinated, self-monitor for symptoms; if unvaccinated, child is to self-isolate for 10 days.

**See "Caregiver Information: Supporting you as you care for your child"

***For Public Health guidance, see Public Health Ontario "[If You Have Tested Positive for COVID-19 or If You Have Been Exposed](#)"
